Refuge of Care

The Snider Campus is not simply a home: it is a refuge of care. And what is at the heart of that care? The people that directly attend to the needs of each resident. Through these difficult times, the team that looks after each person sacrifices a little of their own personal safety to ensure that those who live here can thrive. They do it because they can, they do it because it's the right thing to do. We know that families are struggling to maintain connection with their loved ones, but the care team is doing what they can to be that connection. When the danger has passed, what we will remember is the caring and the love that carried us on.

Today, every day, remember what is most important in our community.

"If patience is worth anything, it must endure to the end of time. And a living faith will last in the midst of the blackest storm." Mahatma Gandhi
